We obtain non-personal information about you from information that you provide to us. This information may be collected when publishers, advertisers, ad networks and agencies (collectively: “**Advertisers and Publishers**”) use our services or systems.

To do so, we collect information about the type of browser, referrer and operating system of Web site visitors, as well as the domain name, day and time of visit, and page(s) visited. We do so across multiple Web domains owned or operated by different entities (each, a “Site”).

Cookies and Log Files

We use Cookies to serve advertisements to users. Cookies are small text files placed on your hard drive that assist us in providing a more customized website experience. It is our policy to use cookies to make navigation of certain websites related to our Services easier for visitors.

In order to properly manage our website, we may anonymously log information on our systems, and identify categories of visitors by items such as domains and browser types. These statistics are used to manage the operational efficiency of our systems.

If you are concerned about cookies, most browsers permit individuals to decline cookies. If you opt-out from accepting cookies you should know that interest-based advertising gives advertisers the chance to show ads that are relevant to you based on your online web browsing behavior. With interest-based advertising, you receive ads and offers that are more likely to be useful to you. Advertisers may also use other information they have or acquire about users’ interests. You can opt-out of interest-based advertising. If you choose to opt-out you will still see ads, but it is more likely those ads won’t be relevant to you. Interest-based advertising does not depend on information that is personally identifiable to you, such as your name, address, phone number, etc.

When you opt-out, an opt-out cookie will be stored in your web browser. Our Platform will know the choice you have made when it sees your opt-out cookie. If you block or delete the opt-out cookie, the Platform will not see your choice. The opt out cookie may not work if your browser is configured to block third-party cookies. If you delete your cookies, you will need to opt out again. There are browser plugins to help you preserve your opt out cookies. The opt out only applies to the browser in which you set it. For example, if you set the opt out while using Firefox, but then use Chrome, the opt out will not be active in Chrome. To opt out in Chrome, you will need to repeat the opt out process. The opt out does not block or delete cookies, or prevent the use of cookies or other technologies for purposes other than selecting ads based on your interests as inferred by your online behavior. If you opt out, data may still be collected about your web browsing activities and you will still see advertising. Ads may be selected, for example, based on the content of the web page in which they are shown. If you wish to block or delete cookies altogether, you can use web browser settings to do so.
